ABOUT ME

I am a second-year student enrolled in the "Data Science and Artificial Intelligence" master program at the University of Trieste. I chose this path driven by my thirst for knowledge, curiosity, and a desire to make a positive impact on the world. In addition to my studies, I have many other passions, hobbies, and part-time jobs that I strive to balance throughout my day. To learn more about me, please refer to the various sections within my CV

EDUCATION AND TRAINING

2016/09/12 – 2021/06/08 Seriate, Italy

● **Upper secondary education diploma - Technical schools**
INFORMATICS AND TELECOMMUNICATIONS IISS Ettore Majorana

Website <https://www.ettoremajorana.edu.it/> | **Final grade** 91/100 | **Level in EQF** EQF level 4 | **National classification** 4

2021/10/04 – 2025/04/26 Trieste, Italy

● **Bachelor's degree in Artificial Intelligence and Data Analytics**
University of Trieste

- Mathematical Analysis I
- Mathematical Analysis II
- Probability Calculus
- Geometry and Linear Algebra
- Introduction to Physics
- Programming Laboratory (python)
- Computer Programming and Architectures
- Optimization Algorithms
- Algorithms and Data Structures
- Databases and Data Analytics
- Statistical Inference
- Numerical Analysis
- Computability, Complexity, and Logic
- Mathematical Methods and Models for Artificial Intelligence
- Dynamic Systems for Artificial Intelligence
- Ethical, Social, and Legal Aspects of Artificial Intelligence
- Databases for Big Data
- Statistical Physics and Information Theory
- Introduction to Artificial Intelligence
- Advanced and Parallel Programming
- Quantum Mechanics
- Introduction to Machine Learning

Address Piazzale Europa, 1, 34127, Trieste, Italy | **Website** <https://ai.units.it/> |

Final grade 91 | **Level in EQF** EQF level 6 | **National classification** 6 | **Thesis** Energy optimization of an apartment using AI

2025/04/26 – CURRENT Trieste, Italy

● **Master's degree in Data Science and Artificial Intelligence** University of Trieste

- Ethics and Law of Artificial Intelligence
- High Performance and Cloud Computing
- Machine Learning Operations
- Statistical Methods
- Algorithmic Data Mining
- Optimization for Artificial Intelligence
- Probabilistic and Deep Machine Learning
- Reinforcement Learning

- Computer Vision and Pattern Recognition
- Natural Language Processing
- Explainable and Neuro-Symbolic Artificial intelligence
- Simulation Intelligence and Learning for autonomous System
- Advanced Deep Learning and Kernel Method

Address Piazzale Europa, 1, 34127, Trieste, Italy | **Website** <https://ai.units.it/> | **Level in EQF** EQF level 7 |

National classification 7

LANGUAGE SKILLS

MOTHER TONGUE(S): Italian

Other language(s):

English

Listening B2

Reading B2

Writing B2

Spoken production B2

Spoken interaction B2

French

Listening A2

Reading A2

Writing A2

Spoken production A2

Spoken interaction A2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

WORK EXPERIENCE

Prof. A. Celani Trieste, Italy

Department Quantitative Life Sciences Section | **Address** Strada Costiera, 11, 34151, Trieste, Italy | **Email** acelani@ictp.it | **Website** <https://www.ictp.it/>

Internship at ICTP

2026/06/15 – Current

Private tutor

Private tutor for high school and university students in primarily scientific and technical subjects. Mainly help in subjects such as: mathematics, physics, and computer science (coding).

A job I've been doing for a long time that fully engages me. I enjoy being able to combine helping someone with discussing topics that I like.

Ristorante pizzeria Tre Isole Tavernola Bergamasca, Italy

Address Via Roma, 18, 24060, Tavernola Bergamasca, Italy

Dishwasher

2020/07/01 – 2020/08/31

- Kitchen cleaning
- Assistant cook for restaurant opening

Ristorante pizzeria Tre Isole Tavernola Bergamasca, Italy

Address Via Roma, 18, 24060, Tavernola Bergamasca, Italy

Waiter and Bartender

2021/07/01 – 2021/08/31

- Welcoming customers
- Table service
- Restaurant preparation and cleaning
- Translator for customers without knowledge of the Italian language
- Managing the bar counter and preparing drinks
- Collaboration with the staff

SKILLS

MICROSOFT SOFTWARE

Microsoft Office (Outlook, Excel, Word, PowerPoint) | Teams (Microsoft Teams)

PROGRAMMER HARD SKILLS

Data structures and algorithms | Algorithm Optimization | Object-oriented programming (OOP) languages | Data base and SQL | Docker Container Architecture | Git version control | Network configurations | Excellent knowledge of computer hardware | Understanding low-level computer architecture | Mathematical skills | Problem-solving capability | Advanced programming | Data Science | Data Collection, Data Processing, Data Analysis, Data Visualisation

PROGRAMMING LANGUAGE

Python (Data Analysis / Data Processing / Scientific Computing / Machine Learning / C Interaction) | C (Scientific Computing / Parallelization / Advanced Computing) | SQL (Creation, management, modification and querying of SQL systems) | R (Statistical analysis / Regression model / Data cleaning and data processing) | Matlab (intermediate level knowledge related to data analysis) | Java | PHP | C++ | bash

OS

Windows | Linux

DIGITAL SKILLS TEST RESULTS

 Information and data literacy	ADVANCED	Level 5 / 6
 Communication and collaboration	ADVANCED	Level 5 / 6
 Digital content creation	ADVANCED	Level 6 / 6
 Safety	INTERMEDIATE	Level 4 / 6
 Problem solving	ADVANCED	Level 5 / 6

Results from a [self-assessment](#) based on [The Digital Competence Framework 2.1](#)

CERTIFICATIONS

AICA

EUCIP IT Administrator

Modules completed:

- PC Hardware
- Operating Systems
- Networks
- Cybersecurity

(Unable to retrieve the certificate from the organization)

Mode of learning: Hybrid

Cisco Networking Academy, 2019/08/08

IT Essentials: PC Hardware and Software

During the Cisco Networking course, the student was able to competently perform the following tasks:

- Choose the appropriate components to build, repair, or upgrade personal computers.
- Explain how to use tools correctly and how to work safely in the lab.
- Install components to build, repair, or upgrade personal computers.
- Explain how to perform preventative maintenance and troubleshoot personal computers.
- Install Windows operating systems.
- Manage and maintain Windows operating systems.
- Configure computers for network communication.
- Configure devices to connect to the Internet and cloud services.
- Explain how to use, configure, and manage laptops and mobile devices.
- Explain how to configure, secure, and troubleshoot mobile, Mac, and Linux operating systems.
- Install and share a printer to meet customer requirements.
- Implement basic host, data, and network security.

- Explain the roles and responsibilities of the IT professional.
- Perform more complex hardware and software troubleshooting.

Mode of learning: Online

AICA, 2016/01/26

ICDL Base

Modules completed:

- Computer Essentials
- Online Essentials
- Word Processing
- Spreadsheets

Mode of learning: Hybrid

IISS Ettore Majorana, Seriate, 2019/05/31

General training course and medium risk to health and safety for workers.

Mode of learning: Hybrid

HOBBIES AND INTERESTS

Sport and nerd activities.

I have been practicing sports for a long time, and although it is not such an important aspect of my life, it has helped me a lot in my personal growth (I was even a regional stand-up paddleboarding champion in 2019). I believe that everyone should practice a bit of sports, both for health reasons and to get more in touch with themselves. Right now I'm going to the gym actively and trying to find a balance between flexibility and muscle strength.

In addition to training my body, I also strive to exercise my mind, as I play the "One piece" trading card game. I love how each game is so different from the others, yet so similar at the same time. Playing helps improve cognitive abilities (allowing for the development of critical thinking and training memory and problem-solving skills) as well as mental skills (such as concentration, planning, logic, and reasoning). Lately I also start competing in some big tournaments that has been organised and I was able to achieve some good results.

Last but not least, I am a proud nerd. I have spent a significant part of my life playing video games, reading comics, and watching movies and anime of all kinds. Despite many people telling me that I was wasting my time, these interests have shaped me into the person I am today, and I am proud of it.

AI Challenge and Conventions

During my studies, I've attended various conventions or talks organized by professors or students on various topics related to the world of AI. I greatly appreciate these activities as a way to stay in touch with other members of the academic community and stay up-to-date on current topics.

In addition, various challenges are organized by external organizations, such as EEESTech, or private companies, such as Generali. These last 12 or 24 hours, in which different teams compete to solve a challenge chosen by the organizers.

In the last two, I managed to place tenth and fifth with my team. I also really enjoy participating in these types of activities, which allow me to interact with other students and compete towards a common goal.

COMMUNICATION AND INTERPERSONAL SKILLS

● **Programmer soft skills**

Below is a list of soft skills that I believe a good programmer should have and that I consider myself to possess.

Communication (verbal and written)

- I possess strong verbal and written communication skills, demonstrated by my ability to clearly articulate ideas, instructions, and feedback.

Teamwork and conflict resolution

- I thrive in collaborative environments and excel at building strong team dynamics.

Problem solving

- My approach to problem-solving is analytical and methodical. I excel at identifying issues, researching solutions, and implementing strategies to overcome challenges. This skill has been crucial in driving projects to successful completion and improving processes.

Patience

- My patience is evident in my ability to handle challenging situations calmly and persistently. I maintain composure under pressure and work through difficulties methodically, ensuring that tasks are completed effectively without compromising quality.

Curiosity

- I have a natural curiosity that drives my continuous learning and professional development. I am eager to explore new ideas, technologies, and methodologies.

Adaptability

- My adaptability is demonstrated by my ability to adjust to changing circumstances and new environments quickly. Whether it's learning new software, adjusting to new team dynamics, or shifting project goals, I remain flexible and focused on achieving success.

Time management

- I effectively manage my time by prioritizing tasks, setting realistic deadlines, and maintaining a well-organized schedule. This skill has allowed me to balance multiple projects simultaneously, ensuring timely and efficient completion of all assignments.

Ethics

- My choices and actions are guided by strong ethical principles. I am committed to honesty, integrity, and fairness in all my professional dealings.

Determination (Stubbornness)

- My stubbornness manifests as a determined and unwavering commitment to achieving goals. Once I set my sights on a target, I persist through obstacles and challenges until I reach a successful outcome.
